# PACIFIC BANK

## OUR QUARTER CENTENNIAL.

The Pacific Bank of San Francisco, California, was organized February 4th, 1863, is now in its twenty-sixth year, and is the oldest Incorporated Commercial Bank west of the Mississippi River.

It was started at a time when mining-stock speculation was so prevalent as to demoralize finances generally on this coast; and it was the determination of its builders that one institution at least should be free from any connection directly or indirectly with speculative gambling.

It was organized under the unusually protective law of California, which makes the stockholders individually responsible to the full extent of their wealth, for their proportionate share of ALL liabilities of the bank—the depositors and creditors of the bank being thus secured beyond the guaranty offered by national or limited banks.

ITS POLICY was not appreciated at first; but gradually the wisdom of the commercial bank's confining itself to strict mercantile methods, and pursuing a cautious, faithful, conservative course, commended itself to the community, and the bank grew rapidly in consequence.

ITS STOCK which in its earlier years went begging at \$80.00 per share is now scarce at \$180.00, and many ask even \$200.00.

ITS ASSETS which were considerably less than \$1,000,000, are now over \$4,000,000 and this increase has been despite the fact that the Pacific Bank never pays interest on deposit balances nor on special deposits.

ITS CAPITAL has risen from \$400,000 to \$1,000,000 paid up in gold coin; and it has in addition accumulated a Surplus Fund of \$650,000, \$200,000 of which have been added during the past two years.

It has during the last twenty-five years, also paid to its stockholders \$1,497,803.77 in dividends.

ITS VOLUME of business which was about \$5,000,000 yearly has risen to over \$225,000,000; and of that rise \$60,000,000 has been the growth since January 1st, 1886.

ITS DEPOSITORS have increased by 165 names during the last twelve months, and when it is borne in mind how much care is shown in the acceptance of new accounts, and the solid character of the patrons of this Bank, it will be seen that this is an enormous advance for so short a time.

WHAT HAS contributed so largely to the success of the Pacific Bank has been the character of the men shaping its course.

It has had but two Presidents; the first was Peter H. Burnett, the first Governor of California, one of the earliest pioneers, a lawyer of eminence, a successful writer on moral and historical topics, and a man of exceptional purity and firmness of character. Under his cautious management, the institution grew from a weak infancy to a vigorous youth.

HIS SUCCESSOR and friend and co-worker as Director and Vice-President, the veteran pioneer, Dr. R. H. McDonald—following the conservative path of his predecessor, but bringing his extensive business experience and his vigorous development methods to his aid—guided the young institution through the most trying period of the State's financial history, up to the wonderfully prosperous manhood it now enjoys.

ANOTHER almost charter member of the institution, and one who has quietly and unostentatiously, but persistently watched over its welfare, always a Director, and at times, as his leisure permitted, Vice-President or Acting President, has been the well-known and prominent capitalist, Capt. James M. McDonald. Few men in California are so popular as Capt. McDonald, for he has been repeatedly chosen to public positions of executive trust, and is to-day one of San Francisco's Supervisors.

SAN JOSE too has always been well represented in our Board of Directors, and has now our still constant friend and able adviser Hiram Mabury, who may almost be styled the "Father of Banks in California," for he has been instrumental in organizing and directing more banks than almost any half a dozen other men of our State.

THESE FOUR men are so well known and have taken such prominent parts in the growth of California from its earliest days as a State, that further mention of them here is unnecessary; but a brief biography of each, with portraits, will be found in the valuable illustrated handbook of California that this bank is issuing in commemoration of its Quarter Centennial life.

DURING the later years, the two sons of Dr. R. H. McDonald have also borne important parts in the development of the bank. R. H. McDonald, Jr., in particular, as Vice-President, has been the practical manager of the business in San Francisco during the frequent absences of his father in the East, while there assisting his other son Frank V. McDonald, the present Cashier, in the direction of the foreign collection and correspondence and advertising departments.

THESE executive officers have also been ably supported by two most faithful counsellors who have passed away, John D. Jams, the former Assistant Cashier, and John Muga, the Head Collector.

AND THEN the number of efficient co-workers in the bank have all contributed in a marked degree, to our prosperity. Pre-eminent among these are our trusty Paying Teller, Louis Vesaria, who has been with us over twenty years; our genial Receiving Teller, M. W. Upton, who entered the bank in 1873; our efficient Note Teller and Secretary, O. F. Miner, who joined us early in 1876; and our expert Accountant and Assistant Cashier, Emil Bellermsen.

EACH in his special field has been a zealous and powerful promoter of whatever success we may enjoy.

AND LAST, but not least, we owe almost our entire prosperity to our depositors, customers, correspondents, and friends of this community, of these United States and of foreign countries.

TO ONE AND ALL, on this auspicious twenty-fifth anniversary, we return, with the compliments of the New Year, and best wishes for their welfare, our special thanks, and hope in the future, to prove ourselves even more worthy than in the past, of the exceptional confidence and interest thus far so steadily and increasingly shown in our behalf.

For quantities of water **not less** than 100 gallons per minute, and for lifts **not exceeding** 100 feet, there is no better pump than that illustrated in the annexed engraving. It is very simple, durable and economical. I make it in sizes from 2-inch, 100 gallons per minute, to 24-inch, with a capacity of 14,000 gallons per minute, and am prepared to build larger sizes to order. They must be set within 20 feet of the water; will draw it that far and force it up 90 feet. They are very satisfactory in wells not over 100 feet deep.

AUTOMATIC FIRE SHUTTER, ADAPTED TO PASSENGER AND FREIGHT ELEVATORS.

This invention commends itself to the public for its efficiency in closing all draft in Elevator Shafts, by which danger of fire is prevented, and for its adaptation to all Elevators.

For its security to life of employees or firemen in buildings, either day or night, the Shutter, being automatic, is opened and locked by the Elevator Cage in its ascent or descent, shutting off each floor effectually, so that accident is impossible. Its adoption is recommended by the Chief Engineer of the San Francisco Fire Department and the Supervising Architect of the City, the Superintendent of the Underwriters' Fire Patrol and its Board of Directors, by the leading Insurance Companies; and principal architects of San Francisco, who have examined and witnessed the Shutter now in operation.

Gents—When one is dissatisfied with his bargains and goods, he is supposed to be allowed to find fault; per contra, when pleased, it is not usual to say anything about it; but as I am an oddity in human life anyhow, I wish to tell you the ten tanks are all up in good shape, have been tried with water, and are perfect. I am very much pleased that you put in the extra staves so we could leave out the THREE IMPERFECT ones that happened in the lot. The cooper says a better lot of wood and iron was never put together.

# Use QUEEN LILY SOAP

GUARANTEED TO WASH WITHOUT RUBBING.

## THE QUEEN LILY SOAP

Has extraordinary merits, and is in good repute with the public, and that is why it is so extensively imitated and counterfeited.

These counterfeits resemble the Queen Lily Soap in appearance and style of packing only. They lack the purity and general excellence of the genuine.

This notice is necessary, as vilely injurious and dangerous imitations, liable to produce chronic inflammation of the skin, are often substituted for the Queen Lily, because they pay a larger profit.

The price of the Queen Lily is as low as consistent with the cost of making such a high grade of pure soap. The price, compared to the quantity and the size of the cakes, makes it the cheapest soap for everybody and for every want. Consumers have simply to insist upon having the Queen Lily, remembering that if any substitute is offered it is for the advantage of the seller.

The Queen Lily is the finest soap known for laundry and general household use. It is made of vegetable oils, and everything used in its manufacture is the purest and best, so it is absolutely pure.

Ladies will find this soap especially adapted for washing faces, infants' clothing, silk hose, cleaning gloves and all articles of fine texture and delicate color, and for the various uses about the house that daily arise requiring the use of soap that is above the ordinary in quality. For the bath, toilet or nursery it is preferred to most of the soap sold for toilet use, being purer and much more pleasant and effective, and possessing all the desirable qualities of the finest unadulterated White Castile Soap. Respectfully,

## Maternity Retreat.

A Home, unsurpassed on the Pacific Coast, for ladies during confinement, for the best medical attendance, and careful and experienced nursing. It is exclusive and first-class. Ladies boarding, especially at hotels, will find it a convenient place for retirement and rest.

References:—The leading Clergy and Physicians of this City and Oakland.

Besides the unexcelled accommodations for married ladies that this institution affords, we are prepared to shelter young girls who are undesignedly unfortunate, give them a home during their sickness. Our establishment is large enough to afford them exclusion, if they desire it, from the other patients. In accommodating this class, we are carrying out one of the first ideas of the Founder of the Retreat, who, however, sought to effect a moral reform, and never received a patient of this class a second time. The latter qualification will be strictly adhered to by the undersigned.

The **Three-Year Curriculum** is adopted by this College; attendance upon three regular courses—at least one in this institution—being obligatory.

A **Matriculating Examination**, or other evidence of the possession of a fair education, will be required on entering.

The **Regular Course** commences on the first Monday in June of each year, and continues until November. It is thus a Summer Course, contrary to general usage.

The **Intermediate Course** commences early in January of each year, and continues nearly four months. It is a great assistance as a preparatory step to the Regular Course, and as offering the fullest opportunities for the prosecution of dissection. Although attendance upon this course is not obligatory, it is earnestly recommended that all attend it who can possibly do so.

Should any further information be desired, it may be obtained by application, in person or by letter, to

## PREFACE.

---

In presenting this our twenty-ninth issue of the SAN FRANCISCO DIRECTORY, we take pleasure in thanking those who have so liberally patronized us, and also those who have in many ways aided us in putting before the public our Directory for 1888. As heretofore, we have spared no expense whatever in striving to make our book what we claim it to be, *The best Directory in the United States.*

Attention is called to the fact that canvassers claiming to represent LANGLEY'S DIRECTORY are taking orders for inferior books, and often collecting payment in advance, and we renew our CAUTION to all advertising patrons to closely scrutinize orders before signing, and ensure safety by refusing *payment in advance* of publication.

Complaints occasionally reach the publishers that Directories have been stolen by borrowers, peddlers and others. To guard against such loss, patrons are advised to mark their Directories conspicuously, and all are cautioned that any SAN FRANCISCO DIRECTORY offered for sale at *less than five dollars*, has probably been stolen.

DIRECTIONS FOR KEY-HOLDERS.—Upon the discovery of a fire near your signal-box, turn the crank steadily to the right, forty times, then wait a few moments, and if you hear no alarm on the large bells, turn as before. If you still hear no alarm, go to the next box and give the alarm from that. Never open the box or touch the crank except in case of fire. Never signal for a fire seen at a distance. Do not give an alarm for a burning chimney. Be sure your box is locked before leaving it. Upon a second alarm being struck for the same fire it will be considered a general alarm. Second alarms will be turned in only by order of the Chief Engineer or his Assistants.

Keys of the signal boxes are deposited in the vicinity of the boxes.

ity of each box, at such places as are indicated upon cards placed thereon.

The signal boxes in use consist of thirty-one crank boxes and one hundred and fifty-six automatic boxes. An alarm from an automatic box is given by pulling down the hook once and letting go, unerring mechanism doing the rest.

Complaints concerning the working of the Fire Alarm Telegraph, irregular striking of the bells and gongs, broken wires, etc., should in all cases be made at the Fire Alarm Office, Brenham Place.

In case of tumult or riot, whereby the services of the Police force are required, an alarm will be given, consisting of ten strokes upon the bells and gongs, repeated five times, which will be a signal for the Police to assemble at the old City Hall. This alarm will be given only by order of the Mayor or Chief of Police.

The telegraph apparatus consists of about one hundred and forty-four miles of wire, divided into twenty-one circuits, of which thirteen are signal circuits, or circuits running to the signal boxes. Alarm gongs are located in the different Engine, Hook and Ladder, and Hose houses, each connected with the Central Office by the fire alarm circuits and eight alarm bells for striking the alarm box, located as follows: One on the Hall of the Exempt Fire Co., one on the Engine House on Sixth street, one on the Engine House on Stockton street, one on the Engine House on Second street, one on the Engine House on California street, one on the Engine House on Sixteenth street, one on the Engine House on Bryant street, and one on the Engine House on Pacific street. The bells and gongs are each struck at the same time by electrical machinery.

## Colleges and Private Schools.

Notwithstanding the excellence of the free public schools of the city and State, their exemption from direct cost to the pupil or parent, and the great interest taken in them by the public as the nurse and strength of our free institutions, colleges and private schools of great wealth, popularity and importance rise and prosper. That such institutions exist, shows the great interest taken in educational matters. The public and private systems are rivals, each stimulating the other, and setting examples of enterprise, management, salaries, edifices, progress and standard of scholarships. There are in San Francisco over one hundred private schools, in which term are included the select school of a few pupils, the seminaries, commercial schools, academies, convent schools, and colleges, with their thousand students. The Census Marshal reported the number of youth attending private and church schools in this city in June, 1887 (not including Chinese) at 12,167. Many of the private schools having edifices of great capacity, cost and grand architectural appearance.

Later on a wing within the enclosure was built, to afford more ample facilities for the improvement of pupils in music, needlework, painting, drawing, etc. The institution contains 500 pupils and a teaching staff of 19 Sisters, and is under the charge of Mother Mary Ignatius McDermot.

The number of students usually in attendance is upwards of 600, with a staff of 27 professors and teachers. The college edifice consists of two main buildings, connected by spacious corridors. On the corner of Grove and Van Ness avenue, the first two stories are used for class and lecture-rooms, and the two upper floors as an exhibition hall. The college will accommodate twelve hundred students. The church and college combined front two hundred and ninety feet on Hayes street, and runs through to Grove street, a depth of two hundred and seventy-five feet. It is one of the largest and most magnificent edifices the city contains.

### SUGGESTIONS TO THE PUBLIC.

Facilities are given to the post-office officials in the discharge of their daily duties, and greater security is afforded to the public, by careful attention to the following recommendations:

Make the address on letters legible and complete, giving the name of the post-office, county and State. The name of the street and number of the house should also be given on letters addressed to cities where letter carriers are employed; while the letter will eventually reach its destination without a number, the omission is often a cause of hesitation and delay. In the case of letters for places in foreign countries, the name of the country as well as the post-office should be given in full. Letters addressed, for instance, merely to "London," without adding "England," are frequently sent to London, Canada, and vice versa, thereby causing delay, and often serious loss.

### FREE POSTAL DELIVERY.

The Free Postal Delivery System is similar to the one so successfully maintained in several of the large Eastern cities. There are ninety-three districts, each of which is in charge of a carrier, who delivers promptly all mail matter received at the Post Office, upon which is written the correct address, street and number of the party for whom it is intended.

All persons who desire their letters, etc., retained until called for, must leave their address at the Post-Office.

### BRANCH OFFICES.

Four Branch Offices have been established at the following named localities; Station A, 1305 Polk street; J. D. Gibbs, Superintendent. Open daily from eight o'clock A. M. to six o'clock P. M.; Sundays from two o'clock to three o'clock P. M. Station B, northwest corner of Mission and Eighth streets; Geo. A. Billings, Superintendent. Open daily from eight o'clock A. M. to six o'clock P. M.; Sundays from two o'clock to three o'clock P. M. Station C, north-east corner of Twentieth and Mission streets; Wm. T. Barnes, Superintendent. Open daily from eight o'clock A. M. to six o'clock P. M.; Sundays from two o'clock to three o'clock P. M. Station D, foot of Market street; Louis Miller, Superintendent. Open daily from eight o'clock A. M. to six o'clock P. M.; Sundays from one to two o'clock P. M.

### STAMP AGENCIES.

There are eight agencies for the sale of postage stamps, located as follows: M. A. McLaughlin, South San Francisco; Henry Donohue, 140 Third street; E. W. Joy, northeast corner Market and Stockton streets; D. M. Gove, corner Fillmore and California streets; Miss S. Dobrzensky, 717 Larkin street; J. H. Bailey, 524 Montgomery avenue; H. G. Steinecke, northwest corner Hayes and Laguna, and Lee Leroy, southeast corner Sixth and Howard streets.

### STREET LETTER BOXES.

PUBLIC STREETS, AVENUES, SQUARES, PLACES,  
OF THE CONSOLIDATED  
CITY OF SAN FRANCISCO,  
IN ACCORDANCE WITH THE OFFICIAL MAPS, 1868, 1870, AND 1872,  
AND SUBSEQUENT ORDINANCES

**EXPLANATORY.**—The Ordinance for re-numbering the buildings of this city provides that "Market Street shall be the starting point for the numbers of all buildings fronting on the streets running therefrom in a northerly direction, and also for those running therefrom in a southeasterly direction. The streets laid down in the official map of the city as forming the water front thereof shall be the starting point for numbers on all streets running westerly and southwesterly therefrom, except upon such streets running westerly commencing from Market Street, and upon all such streets, Market Street shall be the starting point for numbers. On all streets the numbers on the right hand side, starting from the point of beginning, are even numbers, and on the left hand side, odd numbers. One hundred numbers, or as many thereof as may be necessary, shall be allotted to each block bounded by principal streets; numbers 100, 200, and 300 being respectively designated for even numbers, and numbers 101, 201, and 301, in similar manner for the opposite side of the street, throughout its extent; so that the initial figure of the number placed on a building at a street-crossing shall indicate the number of main streets such street-crossing is from the starting point. Not less than twenty feet in frontage of all vacant lots of ground shall be allowed for each number. On all cross or intermediate streets the numbering shall commence where said streets begin, and shall conform to the plan specified in this order."

By this new decimal system of numbering buildings, the exact location of any number is readily ascertained; for example, if you want to find 624 Montgomery, it is on the east side of the block extending from Clay to Washington, which is the seventh from Market—Commercial and Merchant being private streets. Again, 825 Clay is on the ninth block from the water front, which is the one extending from Dupont to Stockton. It must be borne in mind that one hundred numbers are allowed on each block between principal streets.

The following streets are but partially opened, and each differ materially from the plan originally laid out, viz: Clementina, Ecker, Jessie, Minna, Natoma, Ritch, Shipley, Stevenson, and Tehama.

The territory lying west of Laurel Hill and Old Fellows' Cemetery, and generally known as the Outside Lands, has recently been surveyed, and is designated on the new official City and County Map as avenues and streets. Those running north and south are named respectively from First to Forty-ninth avenues, and those running east and west, from First Avenue to the Ocean, and parallel with Point Lobos Avenue, A to W streets.

Reference is frequently made in the Register of Names to the following, and which are located as follows: **Hendley's Dolores;** Western Addition, west of Larkin; **San Miguel Ranch;** southwest and near the Mission Dolores; **Bernal Heights (B. H.);** south of Twenty-sixth Street, between San Bruno and San Jose Roads; and **University Mount Tract (U. M. T.);** west of San Bruno Road, five miles from the City Hall. See, also, **Prominent Places, on Street Directory.**

(b) Street not opened. (c) Fractional blocks, one hundred numbers allowed for first two blocks. (d) Fronting the bay. (e) Street ends. (—) Street does not cross. B. H., Bernal Heights. U. M. T., University Mount Tract. S. S. F., South San Francisco. A blank is used where the number at the crossing of a street could not be ascertained.
